B.Sc in Animation Film Making

Animation is an industry that breathes life into static creation. Our 3D animation courses strive to develop an artistic vision that works at the intersection of technology and the creative arts. Explore the prospects of digital animation and jump-start a rewarding career in this creative sphere by enrolling in our 3D animation institute in kolkata. At our state-of-the-art training facility, we gain experience through learning from pre-production to post-production, performance capture, rendering, 3D animation, storyboarding and character-building. Today Animation is applicable in a variety of industries. Apart from cartoons, animation today is an integral part of the media & entertainment industry, it has transcended the ambit of kids' entertainment, space research and automation.
